

Pocket Wi-Fi (Library Mobile HotSpot)

QUICK START GUIDE

1. What's in the box

2. Before you start

Charge the device

1. Plug the USB-c cable into the device.
2. Plug the AC adapter into an electrical outlet.
3. Charge until the battery charge indicator shows the battery is fully charged.

Get ready

1. Make sure you are in an area covered by the T-Mobile 4G LTE network (not roaming).
2. If you have a LAN connection, disconnect it.
3. Make sure your computer's Wi-Fi (wireless connection) mode is turned on.

3. Get connected

Power up the device

If the device is not powered on, press the power button on the bottom of the device. This will power it on.

- The device will automatically activate. You will see instructions to connect your first device to the Wi-Fi network. (If the device does not activate, an alert will appear.)

Note: It can take several minutes for your device to connect with the T-Mobile Network.

Wirelessly connect your computer

After it's activated, you will need to locate the Wi-Fi name and password. Tap the power button to bring up the menu. The Wi-Fi name should appear. Press the power button again to see the password. You will need this information to connect your Wi-Fi devices (PC, laptop, tablet) to the network.

1. From your computer, display the Wireless Network Connections window and then click View Wireless Networks.
2. Select the wireless network name as displayed on the library hotspot, click Connect and enter your Wi-Fi password, also displayed on the Wi-Fi screen.
3. Launch your computer's Web Browser.

4. Return to the Library

When your checkout period is over, return the device to a Clermont County Public Library. The Library Hotspot will become inoperable if not returned within three days of the due date listed on the register receipt. For every day the device is overdue, you will be charged an overdue fee.
